Made by Kronospan

Dependable. Durable. Close to our customers. For us 'being close to you' is not simply a geographical concept but an integral part of our philosophy. Close to you in our way of thinking, in discernment and in understanding your needs. Which means we are always there for you.

35-hectare factory complex
in Lampertswalde (Germany) –
equivalent to 50 football pitches

Lampertswalde, Germany

Facts & figures

- More than 14,000 employees at over 40 manufacturing and distribution sites worldwide – an international outlook with a strong local presence.
- Our products are popular in more than 90 countries around the world.

Over 100 years in the business. More than 40 manufacturing and distribution sites around the world. Satisfied customers in more than 90 countries. But still both feet firmly on the ground.

What began in an Austrian sawmill back in 1897 has since become a global success story. As the world's leading manufacturer of laminate flooring, we have established our reputation in over 90 countries around the world. This is due in no small part to our pursuit of perfection. Because we always want to be better than our competitors. We know exactly what our customers want.

That's why we leave nothing to chance. We make everything ourselves.

Which includes manufacturing the coreboards, making the adhesive and producing the impregnates – vertical integration that gives us total control over the entire manufacturing process. And over every single detail.

You can see the result in our floors. You can even feel it. Because thanks to our innovation, we have succeeded in getting closer and closer to nature. With all the advantages that a laminate floor offers, such as easy maintenance, all-purpose application and

the ingenious click system for easy installation. It couldn't be simpler. And yet none of this would have been possible without our years of experience and extensive research. Because we know what our customers want.

Over 150 designs. From classic to modern. So there will always be a floor that is to your taste.

Choose from an incredible variety of designs that are the perfect match for any interior. We currently have more than 150 in our product range. One is bound to be right for you.

We are constantly coming up with new ideas that keep us one step ahead of the latest fashion. To do this, we have a team of dedicated designers who not only track current trends but also anticipate them. They know exactly what will get customers excited. With the whole world of design and comfort to their feet. Superior design for us means sleek appearance coupled with a sensual feel. Whether classical or modern, opulent or puristic, Krono Original®

offers top-quality products to turn even the simplest of rooms into a unique, cosy living space.

But there is more to design than just appearance. Substance also counts. That's why we are constantly developing our products to create even more comfortable surroundings and provide greater comfort under foot. An antibacterial coating that inhibits bacteria growth. A robust surface that resists wear and tear. Better protection against micro-scratches which can be caused by mechanical stress. For lasting enjoyment of your floors. And for a good homely feeling.

Natural look

...plus all the practical surface properties that you expect from a laminate floor. Easy to maintain. Easy to install. Protection against micro-scratches. And an anti-bacterial coating. Modern methods make all of this possible while modern technology enhances the visuals. Krono Original® – the floors of the future.

design and surface textures

The elegant longboards in Hardy Oak (5954) design absorb the history of the property and revitalise it with a modern, homely atmosphere.

Collection Vintage Long
5954 Hardy Oak

xps 5.0 Underlay [1]

Where once there were dark beams, low light and bare floorboards, there is now a welcoming, light-infused studio to relax in. A before-and-after story with the WOW! effect.

What started off as a dark and dingy old attic has been changed beyond recognition. Because thanks to the use of modern extra-long Krono Original® floor panels, the space has undergone a miraculous transformation.

Four simple steps to a new living environment. Here's how:

[1] Underlay with 22 dB (xps 5.0) sound insulation ensures that the sheer delight of the occupants with their new living space does not impinge on the peace and quiet of the people in the room below. It also compensates for irregularities in the subfloor of up to 4 mm. (NB: As the subfloor is made of wood, a vapour barrier should not be used.)

[2] In rooms that exceed eight metres in length, an expansion joint must be created in the middle. Consistent with the colouring, this should be in the form of a 34 mm stainless steel transition profile from the professional parts list (91221). Because of its two-part design consisting of an upper and a lower bar, installation is straightforward and it allows the material to expand and contract naturally. [3] The expansion joint around the fireplace was concealed behind an elegant skirting board which echoes the tone and decor of the floor. Using matching clips (91501), the attachment of the skirting is cleverly concealed.

[4] Now all that remains is to sweep the new floor clean with a fine broom. This is also the right time to apply the first coat of the add2 (90411) floor care product, which is ideal for keeping the floor in top condition. This tried-and-tested cleaning agent has been specially formulated to bring the best out of high-quality Krono Original® floors. It prevents the accumulation of dirt, protects the edges and ensures that the room continues to smell wonderful.

before-and-after story

The best moments in life are when you feel you're in the right place at the right time.

K267 Enchanted Oak [Super Natural Classic]

You'll love our floors. Easy installation, A.B.C Anti Bacterial Coating, Microscratch Protect surface or Authentic Embossed texture are just a few of the benefits of Krono Original® floors.

K061 Rusty Barnwood [Super Natural Classic]

Krono Original® floors are tested, certified and full of character.

Guarantee All Krono Original® laminate floors are put through a series of rigorous tests in order to comply with international quality standards, which is why we grant an extensive residential warranty with every product (detailed terms of guarantee: www.krono-original.com). You can be rest assured that, whatever range you choose, it's going to be easy to maintain and will give you enjoyment for many years to come.

Stain and imprint resistant Whatever you might spill, be it red wine, oil or coffee, don't panic; it can be easily removed. Krono Original® is also abrasion resilient, robust and durable.

Twin Clic The Krono Original® Twin Clic system has been specifically designed to make fitting your laminate flooring as easy and hassle free as possible. The Clic and groove profiles allow individual panels to be joined together quickly with minimal tools or complications.

1clic2go Even in hard to reach places like corners, doors and under radiators, the ingenious "1clic2go" system makes installing Krono Original® floors simple and fast. The tongue & groove joint along the length of the panel is placed in position from above and fixed flush with the adjoining panel. The panels are then securely interlocked as the patented "1clic2go" beading latches into position with an audible click. Quick. Easy. Secure.

Drop Loc The Krono Original® "Drop Loc" system is a classic locking system with clickable short and long edges. The tongue & groove joint along the length of the panel is placed in position from above. It is an easy installation with minimal tools.

Multi Patent Indemnity Enjoy 100% security with multiple patent protection for all our products! In addition to the Kronoflooring patents, this Multi Patent Indemnity certificate provides extensive protective rights for VÄLINGE INNOVATION AB international and a choice of UNILIN patents worldwide. This involves assured, unrestricted product use of the glue-free click system for the trade.

TÜV Regular independent quality checking via external testing and auditing of the production process as part of the quality assurance system of Kronoflooring.

Anti-slip classes Safety is something we put great emphasis on. Classification in anti-slip classes (R9 and R10) has been achieved through specially developed surface structures, which address the requirements for floor coverings in the workplace and commercial areas where a high risk of slipping is present.

A.B.C. Anti Bacterial Coating Keeping your flooring as clean and free of bacteria as possible is naturally a major concern. We can't see germs, but we all know the problems they can cause if left unchecked. Allergies can be aggravated and illness can result. A Krono Original® A.B.C. Anti Bacterial Coating inhibits the growth of bacteria on your flooring and provides you with the peace-of-mind that comes from a healthy home environment.

Guaranteed Anti-Static We've all experienced static at some stage and it's pretty unpleasant. No doubt a 'shock' has caused you some discomfort when touching a door handle or using an electrical appliance in your home, so you'll be pleased to hear that help is at hand. Krono Original® Anti-Static floors provide complete protection against unpleasant shocks. The Anti-Static is built-in and guaranteed for the life of the floor. In addition, these floors do not attract dust and dirt in the conventional way and are therefore incredibly easy to keep clean.

Authentic Embossed The high quality Authentic Embossed structures feature elegant contrasting and a thrilling multi-gloss effect that emphasises the depth of the structure with matt and gloss elements that reflect the light differently. The synchronous pores follow the grain of the decor, meaning they flawlessly mimic the character of natural wood.

Handscraped A breathtakingly elegant and realistic oiled finish, with gentle irregular undulations, inspired by traditional Amish craftsmanship. The soft matt surface replicates the hardwood area of solid flooring gently polished over time due to footfall. Meanwhile the deep matt pores are highlighted with glossy accents.

Microscratch Protect This especially durable surface will protect your floors even better against micro-scratches which can occur through heavy use. With Microscratch Protect, your flooring will be well-protected against fine scratches and everyday wear and tear.

Eco Friendly All Krono Original® floors are environmentally friendly as standard made of 90% wood sourced from sustainably managed forests. What's more, the entire production chain – from raw materials to the finished product – has been certified and is regularly inspected by independent experts, ensuring peace of mind for you – and protection of our environment.

Blue Angel Krono Original® has been awarded the Blue Angel eco-label, a German quality seal that provides a guarantee of protection for people and the environment.

handscraped

The unique charm of our handscraped floor lies in its soft, oiled appearance with gentle, natural irregularities. Inspired by traditional handicrafts, this matt structure with elegant, glossy accents resembles a hand-finished wooden surface.

5948 [Vintage Classic]

A surface that looks hand-finished

"I'm a unique individual, with a unique personality. My home reflects this. I insist on surrounding myself with fabrics and furnishings that reflect my personal taste and my attitude to life. Flooring is crucial. It sets the tone as soon as you enter a room. I chose a Krono Original® floor with handscraped texture. It has style, is easy to lay and is perfectly simple to care for. It ticks all my boxes."

The authentic floorboard look.

The traces of time are precious and beautiful – so it's little wonder that vintage style has long been a dominant trend in homes of sophistication. The Krono Original® Vintage Long flooring is the perfect addition to our Vintage collection – a stylish highlight by itself and when combined with other lengths and widths in the Vintage Narrow and Vintage Classic ranges. Its structured surface looks hand-finished and lends our Vintage flooring an authentic, down-to-earth charm.

Krono Original® floors are a match for the everyday challenges of modern family life. The authentic look of real stone or wood with the wipe-clean convenience of a laminate. No wonder it's everyone's favourite.

5946 [Variostep Wide Body]

Durable and easy to clean

5968 [Kronofix Classic]

"A low-maintenance floor is important for us, because our home can be a bit chaotic. Who really likes housework? We like things that make life a little easier – not hours of cleaning. Thanks to our Krono Original® floor, we can relax, as even tough stains like red wine, coffee, fruit stains and nail polish can be removed with ease. Just one wipe and it's clean! What's more, our floor is abrasion-resistant and durable. Our verdict: it's the perfect choice for everyday living!"

K034 [Kronofix Classic]

anti bacterial coating – A. B. C.

You naturally want to keep your floor as clean and germ-free as possible. That's why Krono Original® applies an anti bacterial coating to all its flooring that inhibits bacteria growth. Together with regular cleaning, you can enjoy everyday life without worrying about your loved ones' health or well-being.

K038 [Kronofix Classic]

Inhibits bacteria growth

7240 [Variostep Wide Body]

"Cleanliness is important, especially if you've got little ones or pets running around. That's why I chose Krono Original® with an anti bacterial coating. We can't see germs, but we all know the problems they can cause if left unchecked. Allergies can be aggravated and illness can result. A.B.C. inhibits bacteria growth, so I can rest assured my family and I are protected from any nasty surprises."

Striking floorboard aesthetics.

The Variostep Classic collection not only satisfies your demand for high quality and easy installation. Its V-grooves also create the cosy look of a genuine solid hardwood floor. The grooves give your floor a unique and charming solid plank appearance as well as creating a sense of space. So if you're looking to give your room a breathtaking new lease of life, you certainly won't be disappointed.

K267 [Super Natural Classic]

"I won't compromise my principles. When I buy something, I want to be sure it comes from sustainable sources. So I checked out Krono Original® floorings and found out they use timber from responsibly managed forests. I trust them because, being one of the world's leading manufacturers of laminate flooring, they have a sustainability policy which commits them to reducing their impact on the environment. Which means I can update my home with renewable materials."

Wood is our world. And wood is natural. Consequently, we are at one with nature. In our production and in our philosophy. Because we want to give back to nature what it gives us in quality of life. That's why we are careful to only use wood from sustainably managed forests. PEFC certified. With completely traceable origin. In our manufacturing processes too, the environment is always foremost in our mind. Our objective is to keep waste from production as low as possible – and indeed throughout the entire product life cycle.

We achieve a high recycling rate within the manufacturing process or alternatively use waste material to generate carbon-neutral energy for our production facilities. Our water and energy consumption is constantly monitored. This enables us to quickly identify potential savings and of course implement them in an environmentally friendly way.

This affinity for nature carries over into our products. Our floors are not only environmentally friendly, but also contribute to a healthy living environment. We are committed to using low emission bonding agents that contribute to the overall healthy balance of our products. With certified E1 quality. Quite naturally!

Underlays

Depending on the situation in the room, attention must be paid to the correct underlay material when laying the floorings. For this we offer 4 underlayments.

pur 2.0

This professional acoustic mat consists of mineral fillers and polyurethane binders. Pur 2.0 comes with walking sound reduction, low thermal resistance as well as integrated moisture protection are also impressive features.

wood 5.0

The insulation board is made from wood fibres and is particularly suitable for use with uneven subfloors. Because of its high wood content, a PE foil must be laid underneath for moisture protection when installing on a mineral subfloor.

xps 5.0

5 mm thick panels from extruded polystyrol. Excellent insulating properties and high impact sound reduction. Levels uneven patches of up to 4 mm.

xps 2.2 alu

The 2.2 mm thin foldable mat is easy and quick to lay out due to its bonded aluminium layer and the integrated adhesive tape.

Skirting boards

Choose from a range of skirting in various decors to suit all Krono Original® floors. Our clever fixing system makes it quick and simple to achieve a perfect installation. Please find here a small selection of our skirting.

K40C
2600 x 40 x 19 mm
